

Life Without Limitations®

Thursday, March 04, 2010

Dear Colleague / Practitioner,

I write to inform you of changes to the distribution of the Ossur functional knee brace range (formerly known as Innovation Sports) in Australia. This includes the braces known as the CTi (OTS and Custom), Flex Sport, C180, C180 Rocket and OAsys.

From now on, Australian Orthotic Technologies P/L (AOT) is the exclusive distributor of the Ossur functional knee brace range to medical customers in Australia. This change consolidates the medical distribution of all Ossur bracing products in Australia through AOT.

A medical customer includes any of the following selling a Ossur functional knee brace;

a clinician,

a health practitioner,

an allied health practitioner,

a hospital,

a medical or allied health facility.

Stock is available through AOT immediately. An AOT price list for the range is enclosed.

Thank you for your support of the Ossur knee bracing range. The clinical team at AOT will be pleased to provide you with ongoing professional support and service. Please contact AOT direct for further information on 03 8761 6408.

Yours sincerely,

A handwritten signature in black ink, appearing to read "A. J. ...".

President Ossur Asia.
